The MCTM has awarded scholarships to college upperclassmen who are enrolled in a teacher education program and plan to teach mathematics at the elementary or secondary level. The scholarships are given in honor of Miriam Schaefer who served MCTM with distinction for many years as Registrar and Executive Secretary. Each recipient was awarded $1,500 (increased to $2,500 in 2014 and then to $3,000 in 2017) to be used for tuition, books, laboratory and other fees necessary to fulfill requirements for certification as a teacher of mathematics.

Listed here are the scholarship awardees with the year that they received the award and the school or university they attended.
